What's so GREEN about eZ?

eZ makes it simple and fast to gather and view information from practically any source. It's unique ability to combine specialty file types, such as AutoCAD drawings and Google SketchUp models, into a single and free to share file makes eZ the perfect tool for any designer or organization. Use it for capturing and sketching out your ideas as they evolve. It is as simple as working with pencil and paper, however, eZ allows you to go well beyond the physical limitations of paper by introducing exciting new ways to organize, share and present your ideas to others.

Reduce Paper Waste

Storage and Retrieval

Paper is bulky to store, in boxes or in file cabinets. By using fewer sheets, you can put storage space to more productive use. Finding and recalling information is easier and less time consuming when using eZ.

Environmental benefits

By using and discarding less paper, you are conserving resources, reducing water and energy use, and preventing pollution.

Fact:

Nearly 3.7 trillion tons of paper is used in the United States annually.
(over 700 trillion sheets)
